

Shielded 13.56 MHz Desktop Antenna SAT-A26/31-MR-PML-13MHz

The SAT-A26/31-MR-PML-13MHz is a packaged HF RFID antenna perfectly designed for mid- and long-range applications in industrial environments. The integrated shielding assures that transponders will only be detected inside of the antenna area. Interferences by transponders outside of the antenna or between antennas close by will be minimized.
